The Newton Outrages. The outrages committed on hardworking negroes by a gang of white ruffians and outlaws in Newton county, has aroused a feeling of deep indignation among all the intelligent and respectable people of Mississippi.

We are glad to see the prompt and energetic manner in which Gov. Lowry

has acted in this matter. As soon as these outrages were called to his attention, the Sheriff of the county was instructed to arrest the desperadoes; to summon the whole county as a posse, if this became necessary, and if a sufficient force could not be obtained in this way, to call on him (the Governor) and State troops would be furnished to put an end to this violence and arrest the per-

SATABLYA, July 22, 1886.

Editor Clarion: At a meeting of the citizens and managers of a proposed Confederate re-union to be held at this place August 6th, 1886, it was decided to postpone indefinitely further action in the matter. I regret this very much, as very wide notice had been given, and many assurances received of a very large and pleasant meeting of the sons and daughters of Dixie.

Very respectfully, L. W. Tuttle, Sec'y.

EDITOR CLARION: Monday, July 19th, was a red-letter day for the Grangers of Yalobusha county. It was pretty generally known that the speaking would be in Water Valley at the City Hall, and at an early hour the farmers might have been seen on the by-ways and highways, on horse-back, mnle-back and afoot-back, in wagons, buggies, etc., wending their way in a slipper at Persons & Ligon's. might.

It is a well known fact that bread made with becomes take, the thoesmach, producing indigestion and numerous other complaints. Bread raised with Royal Baking Powder, instead of yeast, is entirely without this diagestion and numerous other complaints. Bread raised with Royal Baking Powder, instead of yeast, is entirely without this defect; but on the contrary, is one of the most effectual preventives of indigestion or dyspepsia. By the use of Royal Baking Powder, the saccharine properties of the flour, which are destroyed by fermentation with yeast, are preserved and the bread is made more nutritious. Ten percent more bread is baked—because of this saving—from the same quantity of flour, aproperty possesseed by no other leavening agent. Thus, much flour that is dark in color, or from other cause is considered below the finer grades, and therefore much cheaper, can be utilized and turned into a perfectly sweet and wholesome bread.
